

PATENT  
10/747,767

**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE**

Inventor: Avi CARMON  
Assignee: Supercom Ltd.  
Serial Number: 10/747,767  
Title: System And Method For Monitoring, Controlling And Reporting Access  
And Attendance Behavior  
Filed: December 29, 2003  
Attorneys' Docket: 439/1

---

**PETITION**

Pursuant to provisions of 37 C.F.R. 1.53(e), Applicant hereby petitions for inclusion of Figure 3 in the patent application and that it was in fact deposited in the PTO with the application papers.

Our file shows that in fact Figure 3 was sent to the PTO with the application. Another copy is attached hereto.

Moreover, a priority claim was made on Israeli application 155050 and the certified copy of that Israeli application was received by the PTO on the filing date of this application and it includes Figure 3. It is requested that the Petitions Examiner look at that certified copy of the Israeli application and he will clearly see that the last page is Figure 3 herein.

Enclosed herewith is a check for \$130 to cover the fee for this Petition.

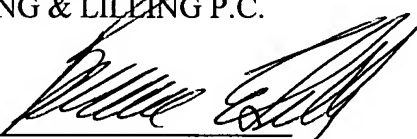

PATENT  
10/747,767

Accordingly, it seems that Figure 3 may have been misplaced by the PTO, but the Applicant should not be prejudiced. In any event, a copy of Figure 3 is in the application file, either separately or in the priority document.

Therefore it is respectfully urged that the Petition be granted and that Figure 3 be included in the application with the original filing date.

Dated: August 16, 2004

Respectfully submitted  
LILLING & LILLING P.C.
